

First Fruit Ministries (FFM) is a non-profit organization dedicated to feeding, sheltering and caring for those in need. Our goal is to transform lives by nurturing the talents of each individual so they may accomplish their true calling and mature in their faith. Our vision is to help others experience the freedom of becoming who they were created to be: productive and healthy members of our community.

Wilmington Dream Center · Transitional Housing (WDCTH) is a 12 month program designed to empower homeless women and families to achieve their dreams of sustainable permanent housing, increased income and/or education and self-determination through personal growth. Dealing with the external issues of income and housing without addressing root causes such as co-dependence, lack of self-esteem, abandonment issues, and poor coping skills is ineffective in creating long term results. Safe personal relationships are key in creating meaningful and sustainable change. At First Fruit Ministries we find that when the program participant feels loved by and genuinely confident in their relationship with staff they are better able to tackle the hard work of personal growth and to achieve the highest outcomes.

Wilmington Dream Center · Transitional Housing Program

We want **all** residents to feel safe and comfortable in their home; to feel supported by our staff and volunteers and by their fellow residents. We want to provide a nurturing and ordered place for personal growth and self-empowerment. We have found that tremendous individual growth and change is possible when our residents are feeling encouraged, engaged, and secure. To help all residents the following **House Rules** are in effect.

Drugs and Alcohol

- Drug and alcohol testing will be conducted on entrance to the program and randomly throughout residency.
- Use of alcohol, illegal drugs, synthetic drugs and legal substances that get you high on or off the premises is prohibited during residency. If a resident tests positive for drugs or alcohol, the tester will dip another test in the same urine to rule out a faulty test.

- Sharing or selling of prescription drugs is strictly against the rules.
- Residents are required to notify the Director each time a physician prescribes a new medication.

Residents are expected to manage their own medication except controlled substances, which are to be avoided. If a controlled substance is prescribed as completely necessary it is to be locked in the Director's office.

Each resident is to make themselves familiar with the fire evacuation procedures. When the alarm sounds, all residents must immediately evacuate and report to the grassy area bordering Vance Street in front of the building.

Support Services

Support services are key in obtaining personal growth and empowerment. Residents are required to attend 3 support groups of their choice each week. Social support groups should be uplifting; members should have the same goal and assist the resident in reaching their highest potential. Payment arrangements will be made with the Director. Proof of income should be provided to the Director at program entry. Discipline is an important tool in raising respectful, responsible children. Parents are expected to implement a discipline policy that best fits their children and in accordance with the North Carolina State guidelines.
